

## Grande Digue Tellel Locker Rehabilitation Project

**Intervention Zone** Regions of Saint Louis, Department of Dagana, Ross Béthio, Diama and Ronkh.

**Description of the Project** The project aims to rehabilitate 3,600 hectares in the Senegal River Valley, with the aim of increasing and improving the productive base of this region. The overall objective of the project is to contribute to achieving food sovereignty by improving the conditions for developing farms. To achieve this objective, several specific actions will be implemented. First, creating an enabling environment for sustainable development is essential, as this will help to effectively combat rural exodus and illegal emigration. Second, the project will focus on optimizing the exploitation of existing hydraulic structures and enhancing the value of available land, thus promoting an intensification and diversification of agricultural production. Finally, improving the socio-economic environment of the targeted areas will be crucial to combat poverty and underemployment, while encouraging the development of small and medium-sized enterprises in the areas of processing, conservation and marketing of agricultural products.

**Expected impact**

- Optimization of agricultural production
- Creating a sustainable
