

## Development of economic activity centers

**Intervention Zone** Sandiara , Montrolland , Bargny, Keur Mbouki , Latmingue , Ndangalma , Bélé , Malicounda , Sebikotane , Tivaouane, Fissel Mbadat , Saint Louis, Ngaye , Ziguinchor (To be completed).

**Description of the Project**

The project aims to remove investment constraints and facilitate the implementation of private investment projects by offering developed spaces in identified development hubs, accompanied by an administrative service center. Its objectives are to diversify and increase the supply of production and storage infrastructure, contribute to the massive creation of jobs, develop territories by creating value-added activities at the local level, and promote a national production ecosystem. This project responds to the lack of developed spaces and storage infrastructure for economic actors, as well as the need to reorganize spaces according to their vocation for a harmonious development of territories.

**Expected impact**

- Development of 95% of the identified areas and filling at least 80% of these developed areas and maintaining it
- Contribution of 20% to job creation objectives, 70% of which for young people and women
- Contribution of 10% to export volumes
- Capture of 20% of private investments

## Project Leader

**Entity** ANAT

**Contact** N / A

**Project Partner(s)** Targeted Community      Technical service  
Relevant ministries      Network dealers

## Funding

**Project amount**      **FCFA** 543,000,000,00      **USD** 909 137 841  
0
