

Greenhouses / ILA TOUBA Highway

Intervention Zone	Thiés , Bambey, Diourbel and Mbacké
Description of the Project	<p>The Ila Touba highway also connects Dakar to the major cities in central and eastern Senegal, including Touba, Matam and Linguère. However, it is noted that the peripheral areas of the highway are undervalued.</p> <p>This project to install 100 greenhouses, each measuring 2 hectares, along the motorway to boost fruit and vegetable production is part of the perspective of strengthening food sovereignty, biodiversity and carbon storage. The use of greenhouses makes it possible to extend the growing season and produce crops all year round. The project will also generate jobs in the construction of the greenhouses, as well as in the management and maintenance of the crops.</p>
Expected impact	<ul style="list-style-type: none"> ▪ Production of at least 30,000 tonnes of fruit and vegetables ▪ Boosting the economy of small villages in the area ▪ Improving cultivation techniques through the implementation of modern and sustainable methods to optimize production while minimizing the use of resources

Project Leader

Entity	Ministry of Agriculture, Food Sovereignty and Livestock
Contact	N / A
Project Partner(s)	N / A

Funding

Project amount	FCFA 36,480,000, 000	USD 60 799 479
Project Duration	2025 – 2029	
Type of Financing Sought	✓Private	✓Audience PPP

Progress Status

Actions initiated	<p>Identification of sites, expression of need and mapping of types and location of greenhouses</p> <p>Studies and research on the sites hosting greenhouse installations</p>
Documents available	Feasibility studies
