

Milk Self-Sufficiency Project

Intervention Zone	All regions of Senegal, including naturally favorable areas and dairy basins
Description of the Project	<p>The Milk Self-Sufficiency Program aims to make Senegal self-sufficient in milk and dairy products and to create jobs for young people and women by investing in the various links of the local milk value chain. This therefore involves increasing the productivity of dairy farming systems, promoting the collection, processing and marketing of milk and improving the business environment of the dairy value chain in Senegal.</p> <p>The program has three (3) main components:</p> <ol style="list-style-type: none"> 1. Increasing the productivity of dairy farming systems 2. Promote the collection, processing and marketing of milk 3. Improving the business environment of the milk value chain
Expected impact	<ul style="list-style-type: none"> ▪ Coverage of national needs by local production of 80% in 2034. ▪ Minimum of 20% of the quantity of milk produced is processed ▪ Reduction of imports of milk and dairy products by 2034 ▪ Creation of 58,530 jobs (including 43,030 direct and 15,500 indirect) especially for young people and women.
