

National Project for the Mechanization of the Agricultural Sector SEN-CGIEIR

Intervention Zone	Rural area - North of Senegal
Description of the Project	<p>Senegal's agricultural production is still unable to cover national demand, particularly due to the low level of equipment on farms, and only 12.6% of agricultural households own motorized equipment.</p> <p>This project aims to strengthen the mechanization and equipment of actors in agro-pastoral value chains by setting up strategic and operational units for the provision of pre- and post-harvest services called Rural Equipment and Infrastructure Management Centers (CGEIR).</p> <p>The objective is to set up 1,500 CGEIRs, each covering at least 10 villages. These centres will be made up of young people and women, trained in the techniques and technologies for producing and promoting agricultural products and who will provide services as well as manage agro-pastoral equipment and infrastructure.</p>
