

Project for the rehabilitation and extension of irrigated areas in the Anambé Basin

Intervention Zone	Departments of Kolda and Vélingara (Kolda Region)
Description of the Project	<p>To strengthen the resilience of communities to economic and environmental challenges, this project focuses on increasing agricultural production, thereby contributing to improving food security in the targeted area. By fostering an environment conducive to the empowerment of producers, it ensures a stable and sustainable food supply.</p> <p>In order to achieve its objectives, the project will focus on several specific objectives:</p> <ul style="list-style-type: none"> - Rehabilitate hydro-agricultural developments and hydraulic infrastructures (Confluent and Niandouba dams, pumping stations) to control water. - Develop 5,000 hectares of new cultivation areas in response to the saturation of current areas. - Strengthen rural economic management centers (CGER) and promote agricultural machinery operating cooperatives (CEMA). - Support vulnerable populations (women and young people) in accessing land and operating credit.
Expected impact	<ul style="list-style-type: none"> ▪ Improving the sustainability and efficiency of hydraulic and hydro-agricultural infrastructures through a reinforced maintenance strategy. ▪ Strengthening the land governance of local authorities to
