

Integrated Palm Oil Production Project

| | |
|-----------------------------------|---|
| Intervention Zone | The southern regions of the country (Kolda, Sédhiou and Ziguinchor) |
| Description of the Project | <p>Senegal imports more than 270,000 tons of oil, 70% of which is palm olein. The integrated project for the production of palm oil from palm groves in the southern zone, encompassing the entire chain, from the creation of nurseries to the final production of quality refined palm oil, was structured to reduce this dependence on imports.</p> <p>The project will include:</p> <ul style="list-style-type: none"> • the development of a sustainable palm oil production system • facilitating access to oil palm inputs. • professionalization and support for producers, • Support for the establishment of processing units • the supply of fertilizers or herbicides/pesticides, harvesting equipment • plot maintenance • The establishment of a refinery by PPP |

| | |
|------------------------|---|
| Expected impact | Contribute to ensuring Senegal's oil self-sufficiency |
|------------------------|---|
