

Establishment of a national SOC and CERT/CSIRT

Intervention Zone

Dakar

Description of the Project

The project to **establish a national SOC (Security Operations Center) and a CERT/CSIRT (Computer Emergency Response Team/Computer Security Incident Response Team)** in Senegal aims to strengthen the country's cybersecurity. The national SOC will monitor digital infrastructures in real time to detect, prevent and respond to security threats and incidents. The national CERT/CSIRT will act as a team specialized in cyber crisis management, ensuring coordination, rapid response and awareness in the face of cyberattacks. This project will protect sensitive data, strengthen the resilience of digital systems and establish a secure digital environment for administrations, businesses and citizens.

Expected impact

- ✓ Securing critical data and services
- ✓ Protection of national critical infrastructure
- ✓ Protection of Operators of Vital Importance (OIV)
- ✓ Prevention of cyber attacks and incidents
- ✓ Appropriate response to cyber incidents and crisis management
