

Dakar Public Transport Network Restructuring Project (RTC-DK)

Intervention
Zone

DAKAR

Description
of the Project

The **Dakar Public Transport Network Restructuring Project (RTC-DK)** is a major initiative aimed at modernizing and optimizing the public transport system in the Dakar region. This project is part of the Senegalese government's efforts to improve urban mobility, reduce traffic congestion, and promote sustainable modes of transport. The RTC-DK represents a crucial step towards transforming the urban transport landscape in Dakar, aligning transport infrastructure with the growing needs of the population and environmental imperatives.

Expected impact

- Ensure connection to the BRT and TER and set up an intermodal transport system;
- Improve service to the peripheral areas of the agglomeration;
- Create a priority bus network and improve the quality of public transport services;
- Achieve fare integration and interoperability between BRT, bus and TER systems;
- Upgrade transport infrastructure and equipment;
- Putting modern rolling stock and operating systems into operation
- Improving Mobility in Dakar
- Reduction of tariffs for users

Funding

Project amount **FCFA 650,000,000,00** **USD 1,032,487,300**

Project duration 2025 – 2030

Type of Financing Sought ✓ Private ✓ Audience PPP
