

**Digital Public Infrastructure (e-ID , e- Sign , e- Payment , Interoperability)****Intervention
Zone**

The whole territory

**Description
of the Project**

It consists of establishing an integrated digital framework to facilitate electronic interactions between the administration, businesses and citizens. It includes the implementation of solutions such as e -**ID** (digital identity), e - **Sign** (electronic signature), **e- Payment (electronic payment), and interoperability** mechanisms to ensure compatibility between different systems and public services. This project aims to modernize administrative services, strengthen the security of digital transactions, improve the efficiency of processes and promote digital inclusion through accessible, secure and interconnected solutions.

**Expected
impact**

- ✓ Improving administrative efficiency through better interoperability
- ✓ Boosting user confidence in digital transactions
- ✓ Infrastructure security and data protection
- ✓ Reduction of administrative costs
- ✓ Broadening the tax base
- ✓ Reduction of fraud and corruption
- ✓ Traceability on all financial transactions
